NPDP Certification is rapidly becoming the essential tool for Product Development Practitioners and is one of the top qualifications sought by top companies in hiring new employees as well as professional advancement for engineers and marketers looking for career connections.

Intellectual Knowledge doubles every seven years. NPDP Certification supports and formally recognizes the drive for process consistency and discipline. But, you're too busy for lengthy training courses.

This workshop is an in-depth study of New Product, Service, and Program Development methods, techniques, and technologies based on industry-wide Best Practices to enhance your knowledge and skills as a New Product Development Practitioner, even if you don't desire certification through PDMA (www.pdma.org).

Benefits for the Individual

- ✓ Confirms mastery of NPD principles and best practices.
- ✓ Enables better job performance.
- ✓ Enhances career and job promotion opportunities.
- ✓ Recognizes growth, professional development, and competence in NPD.
- ✓ Increases recognition by your peers, employers, and recruiters.
- ✓ Sets you apart as an expert and leader in your field.

Benefits for the Organization

- ✓ Supports an organization's drive for process consistency and discipline in new product, service, and program development. It offers the right big picture, baseline, and areas of focus.
- ✓ Top-performing companies understand that properly training employees leads to direct, measurable, bottom-line benefits. Several leading companies are already sponsoring NPDP Certification across their corporations.

Register Now! Space is limited.

- \$695/\$699 per person for four weekly, 2-hour sessions
- \$795/\$799 per person, including a hard-copy workbook

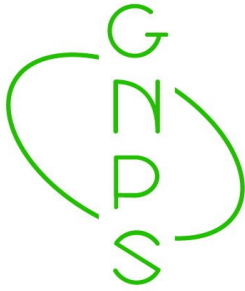

Weeks 1 & 2: Focus on the Business

- **New Product Innovation Strategy**
Business Strategies must be linked via the Roadmap and institutionalized to be effective.
- **Portfolio Planning and Management**
Senior management reviews to evaluate and select the most appropriate NPD projects in line with innovation strategy and available resources.
- **New Product Development Process**
Formal business system with specific activities and checkpoints to ensure market success.

Weeks 3 & 4: Develop Sustainable Processes

- **Teams and Organization**
Having the right people, trained and organized in team structures supporting new products is essential for success and revenue growth in the market.
- **Market Research**
Gathering and evaluating key customer information to identify successful new products, services, and programs. Meeting your customer needs delivers to the bottom-line.
- **Metrics and Tools**
What gets measured gets done! Monitor NPD Team activities and new product system implementation to improve success in your next product launch.

Completed training provides 8 Professional Development Hours (PDHs) for those already NPDP Certified and desiring a refresher course. All attendees will receive a certificate of completion for attending.
